

BH-4S

Portable 4-in-1 Gas Detector

Exib IIB T3 Gb

SIL FC RoHS CE Ex MC PA

Technical Parameters

Alarm type:	sound, light, vibration curve display	Sampling method:	Natural Diffusion
T(90):	<60S	T&H:	-20°C ~50°C, <95%RH
Operating time:	<7 hours	Sensor life:	2 years
Working time:	<8 hours	Display:	2.4 inch LCD display
Dimensions:	145 × 69 × 28mm 230g	Precision level:	IP65

BH-4S Portable 4-in-1 Gas Detector

BH-4S adopts the newest 32-bit microprocessor and imported industrial level sensor, detecting gas by natural diffusion type, with fast response, high accuracy, and good repeatability, performance very stable. Using 2.4 inch LCD display, resolution is 320x240, could upload data to computer to help user analyze data. And User could switch language between Chinese and English. The detector is a qualified product, meets with national measurement production license standards.

The detector could monitor combustible gas, O₂ and other two types toxic gases continuously and simultaneously. It is widely used in the area where explosion-proof is required or toxic gas leaks, like underground channels or mining industry, so as to protect workers' life and avoid damage on the relevant equipment.

High sensitivity

Large colored LCD display

Micro-processor

Large capacity battery

Fast response

Anti-fire, water, dust

Sensors supported

Can detect more than 30 kinds of gases, can customize flexibly according to users' need (detect 4 different gases in one unit). normally detect Ex, O₂, H₂S, CO gases.

Range

EX: 0~100%LEL
O₂: 0~30%VOL
H₂S: 0~100PPM
CO: 0~1000PPM

Resolution

EX: 1%LEL
O₂: 0.1%VOL
H₂S: 1PPM
CO: 1PPM

Curve display

Can display changes of different gas concentrations of a period of time, to help observe and analyze data.

Alarm methods

Indicate alarm by sound, light, vibration and curve display in different colors. User can set high low alarm point according to actual need.

USB data transmission interface

By installing our software, user can upload data records to computer, which makes it easier to do analysis.
